- ✓ Course duration: 4 weeks
- ✓ Language: English
- ✓ Location: Berlin
- ✓ Certification: TU Berlin Certificate of Professional Education (3 ECTS)
- ✓ Format: Blended learning
- ✓ Lecturers: Prof. Dr. Massimo Moraglio, Gabriele Grea
- ✓ Price: 3390 €

Course overview

This certificate course provides a deep insight into the topic of digitalization of transport and deals with practices and scenarios. Through a close exchange with the lecturers and expert guest speakers, participants will gain specialist knowledge, whilst also working intensively on their own, practical project.

Course content

- ✓ Overview of ICT and transport, looking at digitalization between “business as usual” and disruptive innovations
- ✓ Main thematic points: CCAM, MaaS, City logistic, Sharing/flexible transport, Digital twin, Digitalization and planning for carbon neutral mobility

The course will tackle the content through the lens of business, tech, policy and user’s perspective. All participants can undertake their own project, which can be developed within the course with the support of lecturers and experts (confidentiality applies).

Dates

This certificate course comprises a phase of guided self-study, followed by a phase of intensive, in-person sessions in Berlin. The opening session will take place on 28.08.2023, after which the self-study phase commences. From 28.08.2023 to 17.09.2023, online sessions will be held every Monday, from 16:00-18:00 (for 2 hours) and every Thursday, from 16:00-17:00 (for 1 hour). The in-person phase will take place in Berlin from 18.09.2023 to 21.09.2023.
